

Techno Grass & Techno TILE

Tuile intérieur-extérieur perméable / Permeable indoor-outdoor tile

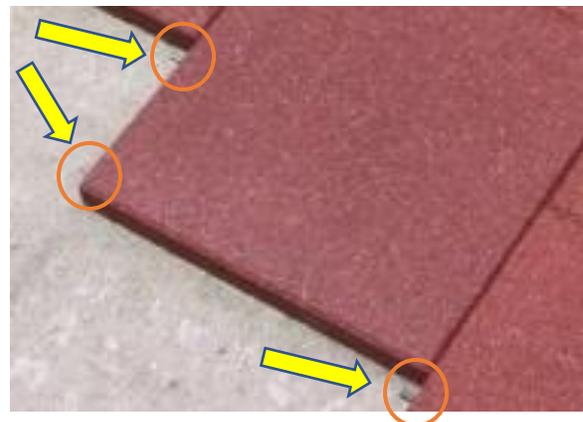

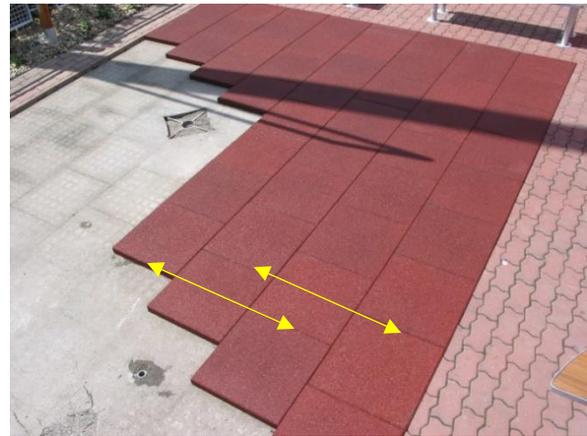

Assemblage à tenon et mortaise

Les dalles de gazon synthétique et tuiles Technoflex sont disponibles avec un assemblage dit à tenon et mortaise. La dalle présente quatre trous sur deux côtés. Dans ces trous sont glissés quatre tenons qui permettent de relier les dalles entre elles.

Les avantages de l'assemblage à tenon et mortaise sont les suivants :

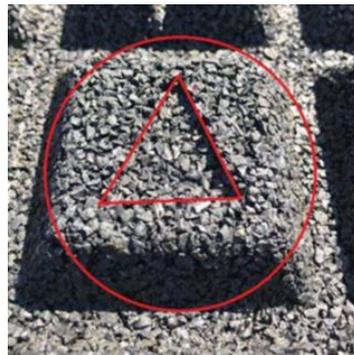

- Stabilité, Antivol, Démontable

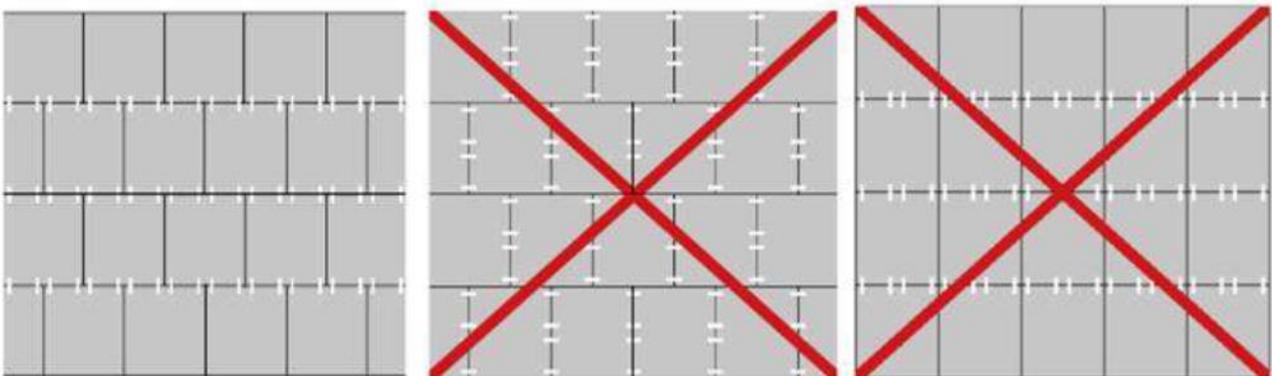

Techno Grass & Techno TILE

Tuile intérieur-extérieur perméable / Permeable indoor-outdoor tile

Tenon and mortise assembly

Technoflex synthetic turf tiles and tiles are available with a so-called tenon and mortise assembly. The slab has four holes on two sides. In these holes are slipped four studs that allow to connect the slabs between them.

The advantages of tenon and mortise assembly are as follows:

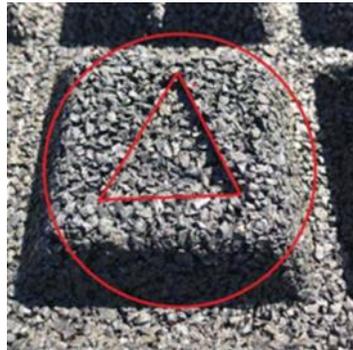

- Stability, Anti-Theft, Removable
